

A HEALTHY COLON: HEALTH BEGINS IN THE COLON

A FAMOUS MEDICAL DOCTOR FROM
BATTLECREEK, MICHIGAN ONCE SAID:

"Of the thousands of operations I personally performed, I never found a single normal colon and of the 100,000 performed under my jurisdiction, not over 6% were normal."

The woman whose X-Ray picture is copied here thought her colon was healthy and that she was *not constipated*, because she had three "regular movements" nearly every day. Before we can even think of rebuilding healthy bodies, we must first clean out the debris in our bodies, that sometimes is known to have hardened and been there for as long as 10 to 30 years!

KEEP YOUR COLON CLEAN!

HERB-LAX

**BUILDING HEALTH
BY
REDUCING TOXINS**

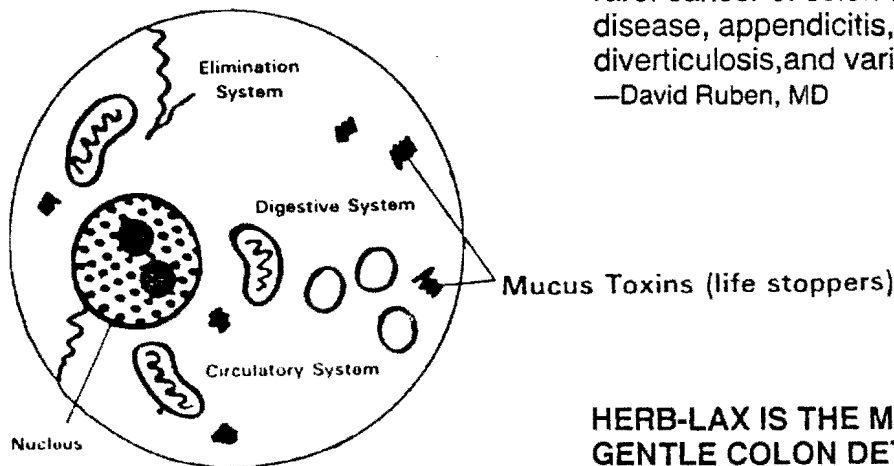

HERB-LAX – 9 OF NATURE'S BEST HERBS

CASSIA ACUTIFOLIA (SENNA TV), BUCKTHORN BARK, LICORICE ROOT, ALFALFA, ANISE SEED, FENNEL SEED, RHUBARB ROOT, BLUE MALVA FLOWER, CULVER ROOT

THE PROBLEM:

The standard American diet takes three full days and in some cases up to two weeks to pass from the dinner table to bowel movement. In countries whose food passage time is 24 hours or less the following diseases are extremely rare: cancer of colon and rectum, coronary heart disease, appendicitis, hemorrhoids, diverticulosis, and varicose veins.
