

Dear Shaklee Family,

Fall is here and so are a few new products. Which one/s are best for you? For me, I am so grateful for our new Probiotic DI and finally a Clay Mask again. Do you remember how we treated our hard-working feet? The 'footcial' is now back and the versatile items needed as well as instructions are provided for you. After a long, hot summer and going barefoot, those feet will be jumping for joy.

And we've got a new 20gm Plant Protein and let's not overlook the new addition to the YOUTH skin-care....who needs skin hydration? What about a guarantee to experience a 212% increase in skin hydration?

All this, but first let's hear from YOU....our readers: 

### From our Readers

"I love the **Youth** product line. It is awesome. The feel and the smell are incredible. My skin really does look better." – *Cathy*

"I use the **Stress Relief Complex** [#20656] as a sleeping pill while travelling or if upset. Sometimes I take two. It works so well for me." – *Monica*

"A year or so ago I had shared that switching from a statin to Shaklee's **Cholesterol Reduction Complex** [#22079] had allowed me to achieve bloodwork that no longer qualifies for statin use, and my results on the supplements were better than the statin. Still not a candidate for statins another year later. After those results, I added the **Glucose Regulation Complex** [#20749]. My fasting glucose has dropped from 104 to 90 in the past 16 months, without any dietary or lifestyle changes." - *John*

"I have three friends using **NutriFeron** [#20962] to control their allergies. They say they can't live without it. One had tried using various over-the-counter and also prescription drugs for her alleriges and couldn't tolerate using any of them because of a heart condition and the side effects she got from them. I told her to try using NutriFeron, it might help, and it did! She is so pleased that she has found something she can use!" - *Joyce*

#20962

"I had severe allergies and chronic infections for 11 years. As I began taking the Shaklee supplements I started to have less allergy symptoms and fewer infections. Then when I added **NutriFeron** to my supplement routine I showed no allergy symptoms at all. And I have lots of energy... anybody with allergies can tell you that allergies rob you of energy and it becomes a big issue. Shaklee truly gave me my life back." - *Toby*

**Optiflora DI** Not all probiotics are created equal. **Optiflora DI** delivers unique benefits via a proprietary formula with **10 billion CFUs with 4 bacterial strains, including the powerhouse *Bifidobacterium lactis HN019***, which was **proven in clinical studies to provide digestive and immune health support.**

#21320

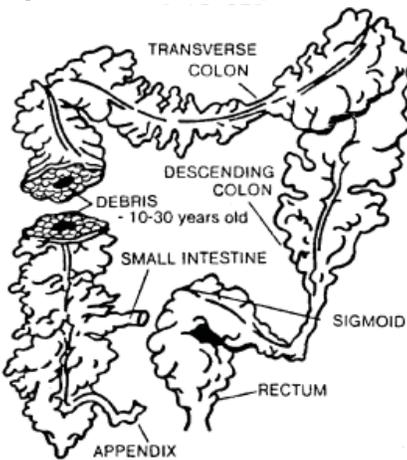

- Helps restore intestinal flora balance/good bacteria
- Helps maintain regularity and reduce occasional gas and bloating

**Clinically proven immune support.** At least 70% of our immune system is in our gut. Optiflora DI adds “good” bacteria to our gut, supporting immune health.

**Clinically proven digestive balance and comfort.** Helps maintain digestive health and regularity. Reduces the likelihood of occasional gas, and bloating.

**Laboratory-tested to survive stomach acid.** *B. lactis HN019* is shown to survive passage through the digestive tract to reach the large intestine and deliver maximum benefits to the gut.

**Optiflora DI** is gluten free, soy free, dairy free and kosher D. No refrigeration required.

*The woman whose X-Ray picture is copied here thought her colon was healthy and that she was not constipated because she had three “regular movements” nearly every day. Before we can even think of rebuilding healthy bodies, we must first clean out the debris in our bodies that sometimes is known to have hardened and been there for as long as 10 - 30 years!*

For optimal results, support your colon health with: Herb-Lax [#20141], Alfalfa [#20160], Optiflora DI [#21320], hydrate daily with purified water, eat a 80/20 alkaline to acidity diet and the Fiber Advantage Bars [#21220] will help you to reach healthy fiber levels.

Vanilla #21333  
Chocolate #21335
